Welcome to Figges Marsh Dental

Figges Marsh Dental is a mixed NHS and private practice, catering for the everyday dental needs of local community. We openly welcome all patients regardless of age, whether it is to check the first baby teeth or for a full mouth makeover.

The team at Figges Marsh Dental is committed to providing a welcoming atmosphere and delivering enthusiastic, thorough, high quality treatment.

The surgery changed ownership in 2016 and has undergone drastic changes including a complete refurbishment and heavy investment in new modern equipment. We have also built a state of the art decontamination room that meets best practice standards.

Figges Marsh Dental offers a large range of treatment including Invisalign, composite bonding, implants, white fillings, crowns, teeth whitening, teeth straightening, complete smile makeovers and smile design, periodontal (gum) treatment and root canal treatment. We are lucky enough to be able to offer places to new patients who wish to be treated on the NHS.

We provide the full range of NHS treatment (except NHS orthodontics and sedation) to all members of the public.

Patient Confidentiality

We take patient confidentiality extremely seriously at Figges Marsh Dental and all personal information is treated in the strictest confidence. Only members of staff have access to patient information. All our patient records are securely stored at our practice to ensure that any patient information is only accessed as part of your treatment. No information will ever be released to a third party without your express permission. We have a strict confidentiality policy. To see a copy of this policy or if you would like further information regarding your rights to view your patient records, please ask at reception.

Complaints Procedure

We aim to make your experience at the practice as pleasurable as possible. However, should you have any complaints, please contact Rajiv Ruwala on 020 86403284 or email at info@figgesmarshdental.co.uk. Rajiv will be able to deal with your complaint and talk you through our procedure. Alternatively, you can pick up a copy of the procedure from reception.

Methods of Payment

After an initial examination the dentist will determine a plan of treatment which will be discussed with you. You will also be given an estimate of the likely cost. Full payment for NHS treatment is required at the start of treatment. We also require a deposit when booking private treatment and this will be deducted off the total cost. If you fail to attend your appointment for private treatment, the deposit may be retained as a broken appointment fee. We accept the following methods of payment at the practice: cash and all major credit and debit cards. We are also able to offer financing plans for private treatment over £300.

Other Information

You can express a preference about which dentist you will see. We will make all reasonable efforts to ensure that the request is met, but this may not always be possible. Should you wish to express a preference of practitioner, please state who you would like to be seen by when booking your appointment.

We would strongly encourage our patients to attend regularly in order to achieve or maintain good oral health. We will undertake a dental care assessment during your first appointment in order to ascertain and agree your treatment needs.

We understand the needs of our patients and we do everything to ensure that treatment is done in complete confidence by properly trained staff. We also make sure that you are involved in decision about your dental care.

We endeavour to see all patients and our practice has been designed so patients with disabilities can access care.

Missing appointments wastes time and resources which are needed for other patients. Our practice policy is that if, on more than one occasion, patients cancel with less than 24 hours' notice or do not attend an appointment, then we will no longer be able to offer NHS treatment.

We will of course take any special circumstances into account. We may still be able to offer private dental care, but will require a non refundable deposit. Patients who are violent or abusive to practice personnel, to other patients or anyone else on the practice premises will be refused treatment and reported to the appropriate authorities.
